Cost Improvement Plan (CIP) Benchmark Sheet

| | Concerns | Good practice | Trainer Comments |
|------------------------------|--|--|------------------|
| Investigation and | Doesn't understand process, not spoken to | Clearly explored and discussed process with | |
| understanding of the | relevant stakeholders. No clear objectives. | stakeholders. Aware of Trust expectations. | |
| process- appreciation of | | Clear objectives which fit with cost | |
| the objectives | | improvement without compromising care. | |
| Review of the budget | Not looked at this or not involved the right | Taken advice from clinical leads and managers | |
| - | people. | on the budget implications and requirements. | |
| Approach to "quick wins" | Not sure what this is, doesn't identify the | Aware of the concept and its relevance to this | |
| l | possible second order impacts of a 'quick win' | plan. Identifies quick wins along the way. Seeks | |
| | | advice from relevant authorities. Recognises | |
| | | possible second order impacts. | |
| Logical defence of offering | Doesn't have a cohesive plan. Not thought in | Creates a logical CIP which outlines the | |
| of cost improvements | depth into implications. | improvements and requirements in a way that | |
| | | is clear and realistic for team. | |
| Describes clearly the likely | No thoughts or discussion. | Has thought through implications, perhaps | |
| result of cost improvement | | discusses alternative solutions or providers. | |
| | | Can weigh alternative number of options. Has | |
| | | involved stakeholders. | |
| Understands relation to | No real budget or PBR understanding. | Has understanding of NHS finances, PBR, | |
| possible income stream | | budgets and stakeholders involved. | |
| including PBR issues | | | |
| Reflection | Has not demonstrated required learning or | Demonstrates further understanding of CIP and | |
| | reflection from process. | finance streams. Aware of challenges and | |
| | | identified personal learning points. | |

The assessor is asked to consider the learner's performance in all of the domains listed in completing this statement: <u>"Based on this WPBA, I would be satisfied that this learner could contribute to a cost improvement plan as a newly appointed consultant"</u>
