

## Toxicology around the world

Date: Monday 8 March 2021.

The RCEM is excited to partner with the International Federation for Emergency Medicine (IFEM) on this event. Join us for a round-the-world tour of toxicology, delivered to you by international speakers.

### Content:

Each speaker will address the following points:

- Regional most common toxicological emergencies
- Top tips of clinical management, see specific topics in the programme

### Who should attend?

- Clinical/Research/Teaching Fellow
- Consultant
- Paramedic
- Physician Associate/Advanced Care Practitioner/Advanced Nurse Practitioner
- Pharmacist
- Specialty doctor/SAS Grade
- ST grades

### What to expect

- Log in instruction to join the live event will be sent to registered delegates week commencing 1 March.
- Delegate can ask questions via the chat function located below the video on the event page.
- Local timezone is GMT.
