

Regional Holding Centres for Category C Antidotes

1. Category C Antidotes

Use of these antidotes should always be discussed with NPIS and/or a Clinical Toxicologist who will be able to provide contact details to arrange the supply of these antidotes.

Antidote	Source
Glucarpidase (Vorazaxe) 1000 units / vial	Oxford Pharmacy Store
Uridine Triacetate (Vistogard) 10g / pack	WEP Clinical
Botulinum antitoxin 25g in 250ml bottle	Botulinum Antitoxin Holding Centres
Pralidoxime 1g / vial	Pralidoxime Holding Centres
Prussian Blue (Berlin Blue) 500 mg (36 caps/pack)	Category C Holding Centres
Sodium Calcium Edetate 500mg/10mL (10 amps/pack)	Category C Holding Centres
Succimer (DMSA) 100 mg (15 caps/pack)	Category C Holding Centres
Unithiol (DMPS) 250mg/5mL (5amps/pack) or 100mg (20 caps/pack)	Category C Holding Centres

[Glucarpidase](#) and [Uridine Triacetate](#): use of these antidotes is commissioned and funded by NHSE.

- Uridine Triacetate is available 24/7 through [WEP Clinical](#):
 - Mon-Fri (9am to 5pm): 020 8004 7320
 - Emergency product orders: 020 7887 2235
- Glucarpidase is available through [Oxford Pharmacy Store \(OPS\)](#):
 - Mon-Fri (9am to 5pm): 01865 901000
 - Emergency product orders: 01865 901000 and ask to speak to the on-call pharmacist
 - Out of Operating Hours: OPS aim to dispatch within 24 hours
 - Online [Order Form](#)

[Botulinum Antitoxin](#) and [Pralidoxime](#) are available free of charge through separate holding centres overseen by the UK Health Security Agency (HSA).

The remaining four Category C drugs are held within the 8 holding sites [at some sites Unithiol may only be available in the injectable form].

2. The Holding Sites

The 8 holding centres for Category C antidotes in England are shown on the map overleaf. The map indicates the anticipated geography that each holding site covers, but these boundaries are indicative only and a degree of flexibility is envisaged depending on the circumstances of any request.

3. The Process

Clinicians who have a patient who requires treatment with a Category C antidote should contact NPIS or a Consultant Clinical Toxicologist. Hospitals making a request to a Category C holding site before discussing the case with NPIS or a consultant toxicologist will be asked to contact NPIS for approval of use of a Category C antidote.

The pharmacy at the requesting hospital will then make contact with the pharmacy at the Category C holding site to arrange transfer of stock. The holding site will arrange transportation and it is recommended that antidotes will be available at the patient bedside within 4 hours of the request.

4. Contact Details for Supply of Category C Antidotes from Category C Holding Centres

Site Location	In hours contact	Out of hours contact
Brighton	01273 696955 Extension 3118 or 3119	01273 696955 switchboard Ask for On Call Pharmacist
