

RCEM Annual Scientific Conference 2023 Poster Board List

Posters are displayed within the topic they were submitted under, and then alphabetically by surname

Firstname	Lastname	Abstract Title	Topic	Poster board number
Leah	Heredia	An audit of the initial management of neutropenic sepsis: emergency department outcomes at an acute district general hospital	Acute medicine	RCEM 1
Hussein	Hussein	Unmasking the Paradox: The Dual Dance of Alkalosis and Ketoacidosis	Acute medicine	RCEM 2
Devan	Mair	Clinical and demographic characteristics of nitrous oxide-induced myeloneuropathy; what do I need to look out for in emergency medicine?	Acute medicine	RCEM 3
Sherif	Mira	Pneumonitis: Is it actually caused by the Ceftriaxone?	Acute medicine	RCEM 4
Sweta	Pillai	CURB-65 score in CAP	Acute medicine	RCEM 5
Mohamed	Shirazy	Ramping position to aid non-invasive ventilation (NIV) in obese patients	Airway management and procedural sedation	RCEM 6
Sara	Williams	Provision of anaesthesia in the non-theatre environment: analysis of access to equipment, emergency guidelines and drugs.	Airway management and procedural sedation	RCEM 7
Venoth	Arulvasan	The Effects Of Introducing An Emergency Department Handbook On The Confidence and Entrustment Scale Ratings Of Junior Doctors New To Emergency Medicine.	Education	RCEM 8

Emma-May	Curran	Can Multidisciplinary Team Simulation Based Education Improve Time To Transfusion In A Massive Transfusion Protocol	Education	RCEM 9
Leo	Datnow	'KICK UP, STAY UP, BREATHE, FOCUS': An Up-To-Date Rescue Tool for First Responders Conducting Rescues in Cold Water	Education	RCEM 10
Abraham	Davis	TheTwilightSeries – A National, Online, Emergency Medicine Educational Program	Education	RCEM 11
Sarah	Edwards	Improving Electrocardiograph (ECG) screening interpretation from triage in the Emergency Department	Education	RCEM 12
Omar	Hussain	Whatsapp cased based, interdisciplinary teaching; a novel, method of education.	Education	RCEM 13
Aishwarya	Khanna	Rare Presentation of Metastatic Lung Cancer: Acute Presentation Affecting Sight, Identified in A+E.	Education	RCEM 14
Shivani	Kotecha	“The crash course’: Final Year Medical Students Involvement in the Cardiac Arrest Team. A novel educational approach to improve confidence and preparedness for work.’	Education	RCEM 15
David	Kung	Sharing Personal and Collaborative Reflective Learning from Simulation: An Automated Informatics-Based Solution	Education	RCEM 16
Pinky	May Myat Noe Pwint	Stop The Bleed Day: Empowering Young People to Save Lives	Education	RCEM 17
Guilherme	Movio	Fast-Bleped: A medical educational series comprising instructional pieces on how to approach undifferentiated acute problems	Education	RCEM 18
Jack	Owsley	A comparison of the frequency and variety of use of clinical decision-making resources, between Emergency Department Consultants and Junior Clinicians, to inform practice.	Education	RCEM 19

Anukiran	Ravichandran	Improving the knowledge and skills of FY2 doctors in managing trauma cases: A structured educational program	Education	RCEM 20
Simon	Robson	Opportunistic health education in the Emergency department: the use of QR codes to improve ECG interpretation.	Education	RCEM 21
Simon	Robson	Improving technology in health education: the use of interactive software Mentimeter to improve engagement in undergraduate medical teaching	Education	RCEM 22
Rajesh	Vasiraju	ED Departmental Procedure Skills Day – A DGH Experience	Education	RCEM 23
Naomi	Wijesingha	Improving confidence of Emergency Department doctors in the use of direct ophthalmoscopy and slit-lamp biomicroscopy for eye examinations: an audit	Education	RCEM 24
Javairia	Yakoob	Decolonising the Undergraduate Emergency Medicine Curriculum	Education	RCEM 25
Rebecca	Yates	Evaluating the year 4 medical student experience of an online tutorial focussed on vulnerable patient groups presenting to the emergency department.	Education	RCEM 26
Salma	Alawiye	A survey of current policy regarding the recognition and management of acute aortic syndrome in Great Britain.	Emergency medicine (general)	RCEM 27
Rory	Anderson	The SEED Study: The management of transient loss of consciousness (TLOC) and suspected syncope in European Emergency Departments: a prospective cohort study	Emergency medicine (general)	RCEM 28
Fathima Shafna	Badurdeen Mahmood	Advance Care Planning (ACP) Importance of ACP specially in Elderly people with a high frailty score to provide the best health care to live as well as possible until they die and to die with dignity.	Emergency medicine (general)	RCEM 29

Grace	Blows	A comparison of cardiac arrest frequency between 2022-3 and 2018-19 in a District General Hospital - Has cardiac arrest frequency gone up with increased time in ED?	Emergency medicine (general)	RCEM 30
Eva	Cairney	Reducing Unnecessary Cannulation in the Emergency Department	Emergency medicine (general)	RCEM 31
Kamal	Dev	PRECIPITATION OF ANTICHOLINERGIC TOXIDROME IN ORGANOPHOSPHATE POISONING DUE TO OVER ATROPINISATION FROM RURAL HOSPITALS A RETROSPECTIVE OBSERVATIONAL STUDY IN EMERGENCY DEPARTMENT	Emergency medicine (general)	RCEM 32
Pavankumar	Hulikere Srinivasaiah	This case study will be regarding De Winters ECG pattern and its importance in early recognition of proximal LAD occlusion which can be considered ST segment elevation equivalent for emergency PCI.	Emergency medicine (general)	RCEM 33
Hussein	Hussein	Multiple Aortic Thrombus in a Cancer Patient Presenting with Acute Upper Limb Ischemia: A Challenging Case	Emergency medicine (general)	RCEM 34
Hussein	Hussein	From Gut to Limbs: The Astonishing Journey of Acute Abdomen to Acute Hemiparesis	Emergency medicine (general)	RCEM 35
Tom	Jose	A rare case of Freiberg's disease in a 43-year-old picked up in an urgent care setting.	Emergency medicine (general)	RCEM 36
Solmi	Lee	Reducing Door to Imaging Time In Acute Stroke Patients Presenting To The Emergency Department In An Acute General Hospital	Emergency medicine (general)	RCEM 37
Prudence	Leung	Evaluating the Appropriate Utilisation of Troponin Testing in the Emergency Department: A Single-Centre Study in the United Kingdom	Emergency medicine (general)	RCEM 38
Hanxiao	Li	Can low recruitment to the Duration of External Neck Stabilisation (DENS) trial be explained by reduced CT scanning of older patients in the emergency department?	Emergency medicine (general)	RCEM 39

Nick	Mani	The Utility of Bedside Focused Transthoracic Echocardiogram in Diagnosing Suspected Non-Traumatic Acute Thoracic Aortic Dissection/Syndrome and Its Associated Early Complications- A Systematic Review	Emergency medicine (general)	RCEM 40
Isabel	Mansilla	QUALITY IMPROVEMENT PROJECT – IMPROVING THE QUALITY OF CARE OF ASTHMA PATIENTS PRESENTING TO LUTON AND DUNSTABLE UNIVERSITY HOSPITAL EMERGENCY DEPARTMENT 2021-22	Emergency medicine (general)	RCEM 41
Thomas	Mathew	A rare case of Aneurysmal bone cyst in a 7 year old picked up in an urgent care setting.	Emergency medicine (general)	RCEM 42
Thomas	Mathew	Atraumatic Lisfranc dislocation of the foot secondary to Charcot arthropathy picked up in an urgent care setting.	Emergency medicine (general)	RCEM 43
Sherif	Mira	From Life-Saving Injection to Unintended Consequence: Epinephrine Autoinjector-Induced Accidental Finger Ischaemia	Emergency medicine (general)	RCEM 44
Claire	Mulavenna	The calm before the thunderstorm: Thunderstorm asthma, a paediatric emergency department experience	Emergency medicine (general)	RCEM 45
Pranatiara	Naidu	An audit of Parkinson's Patients self-administration of own medication in Connolly Hospital Blanchardstown	Emergency medicine (general)	RCEM 46
Nimca	Omer	Evaluation of the diversity of research screening and recruitment in the Emergency Department.N.Omer, R.Astin-Chamberlain, and J.Pott	Emergency medicine (general)	RCEM 47
Tine	Panduro	ROLE OF SERUM BIOMARKERS IN SUSPECTED CAUDA EQUINA SYNDROME(Preliminary results of a potential screening method using Single-Molecule Array - Simoa®)	Emergency medicine (general)	RCEM 48
Danielle	Richler-Potts	The Impact of Departmental Induction on the Wellbeing of Junior Doctors in the Emergency Department at Worcestershire Royal Hospital	Emergency medicine (general)	RCEM 49

Tom	Roberts	Subsequent healthcare resource use after an attendance to emergency care with acute headache – a multi-centre mixed methods feasibility study.	Emergency medicine (general)	RCEM 50
Punhiru	Udeshika	Audit on NIV mask application in ED	Emergency medicine (general)	RCEM 51
Nicolas	Vecchione	Dying in the ED and the interface between emergency medicine and palliative care: a service evaluation from five acute trusts	Emergency medicine (general)	RCEM 52
Suen Yee	Walker	Investigating the Current Clinical Practices for Suspected Renal Colic in Inverclyde Royal Hospital Emergency Department - A Quality Improvement Project	Emergency medicine (general)	RCEM 53
Monica	Wallace	A Service Evaluation of SCI Gateway as an Online Referral System for Neurosurgery Referrals from the Emergency Department	Emergency medicine (general)	RCEM 54
Timothy	Waters	The Fatal Effect of Systematic Cognitive Error in Ambulatory Pulmonary Embolism Pathways	Emergency medicine (general)	RCEM 55
Heather	White	Improving rates of GP registration in an inner city, tertiary centre emergency department.	Emergency medicine (general)	RCEM 56
Safiya	Zaloum	Remaining deficits at discharge from ambulatory care in patients with nitrous oxide-induced myeloneuropathy	Emergency medicine (general)	RCEM 57
Harriet	Crook	Disease incidence within refugee communities living in street camps in the North of Paris	Global health	RCEM 58
Diya	Devassy	Bursting an Epidemic Outbreak of Nipah virus : Benchmark Model	Global health	RCEM 59
Anisa	Jafar	Global health experience of staff working in UK Emergency Care – A reflexive thematic analysis	Global health	RCEM 60
Madina	Hasan	Exploring variation in ED attendances and acute hospital admissions for Ambulatory Care Sensitive Conditions: A federated data analysis	Health services (e.g. design and delivery)	RCEM 61

Abbie	McAlinden	Home with Stones: Use of an Ambulatory CTKUB Pathway in the Emergency Department	Health services (e.g. design and delivery)	RCEM 62
Alexander	Robertson	Identifying avoidable Emergency Department attendances from routine data	Health services (e.g. design and delivery)	RCEM 63
Paul	Schofield	2022-23 Healthcare Strikes and Their Effect on ED Attendances	Health services (e.g. design and delivery)	RCEM 64
Sian	Thomas	Acceptability of a modification of the disposable urinal bottle (the EasyWee) for immobilised patients with female anatomy: Prospective Observational Cohort Trial	Health services (e.g. design and delivery)	RCEM 65
Lagath	Wanigabadu	Improve confidence of using electronic patient records through multiple interventions in a district general hospital	Health services (e.g. design and delivery)	RCEM 66
Rebecca	Yates	Evaluating the Leeds Emergency Departments Youth Navigator Service	Health services (e.g. design and delivery)	RCEM 67
Vasileios	Kalantzis	Accuracy and diagnostic utility of lung ultrasound for the diagnosis of ventilator-associated pneumonia.	Infection and sepsis	RCEM 68
Roshan	Pk	Prospective Validation of a Novel Sepsis Screening Tool in a High Volume Emergency Department	Infection and sepsis	RCEM 69
Sarah	Finlay	Leadership on the Front Line: What do leaders in Emergency Medicine need to maintain their own well-being within their leadership position?	Leadership	RCEM 70
Arina	Kruis	Why is there persistent conflict between Emergency Medicine and Internal Medicine Practitioners, at a tertiary-level hospital, during patient referrals?	Leadership	RCEM 71
Sherif	Mira	Igniting the Spark: Unleashing the Research Firestorm in Emergency Medicine	Leadership	RCEM 72
Rajesh	Vasiraju	Leadership Away Days – A DGH Experience	Leadership	RCEM 73

Duncan	Hargreaves	A validation of the modified National Emergency Department Overcrowding Score (mNEDOCS), and comparison with NEDOCS performance, against clinician opinion of crowding in a UK ED.	Management	RCEM 74
Duncan	Hargreaves	Charge nurse opinion of crowding alone correlates well with mNEDOCS for missing and imputed data: a validation of modified National Emergency Department Overcrowding Score (mNEDOCS) in a UK ED.	Management	RCEM 75
Jonathan	Mosery	Do Automatic Push Notifications Improve Patient Flow in the Emergency Department? Analysis of an ED in a Large Medical Center in Israel	Management	RCEM 76
Edmund	Lodwick	Assessment of smoking status and prescription of Nicotine Replacement Therapy (NRT) in mental health patients presenting to SMH A&E	Mental health	RCEM 77
Jonathan	Mosery	Resilience of Hospital Staff Facing COVID-19 Pandemic: Lessons from Israel	Mental health	RCEM 78
Conor	Naylor	Appropriateness of the Emergency Department as a Place of Safety for Patients Detained Under a Section 136	Mental health	RCEM 79
David	Purdy	Mental Health at Night	Mental health	RCEM 80
Janith	Pathirana	Improving the use of methoxyflurane (Penthrox) as a first line analgesic in patients with fractured neck of femurs at Chelsea and Westminster Hospital, Emergency Department	Pain management	RCEM 81
Isabella	Walker	In patients with rib fracture associated severe pain is Serratus anterior plane block comparable to Thoracic epidural analgesia at reducing pain scores?	Pain management	RCEM 82
Ronan	Yeo	Our experience of Virtual Reality headsets for patients during painful procedures in the Emergency Department; What went wrong?	Pain management	RCEM 83

Jai	Anand	Community First Responder Schemes in England and Wales: A Current Evaluation of Practice	Pre-hospital care	RCEM 84
Polen	Bareke	To flow or not to flow? A systematic review of prehospital REBOA in non-traumatic cardiac arrest	Pre-hospital care	RCEM 85
Georgia	Clarke	The Effect of Supplementary Calcium Administration following Pre-hospital Blood Transfusion in Major Trauma Patients between 2019 and 2023	Pre-hospital care	RCEM 86
Laura	Douglas-Beveridge	Emergency Point of Care Blood Testing at Wembley National Stadium – a Case Series Exploring its Use in the Decision Making Process for Patient Conveyance vs Discharge	Pre-hospital care	RCEM 87
Marisa	Fretz	Is Tranexamic Acid Delivered in an Appropriate Timeframe By Pre-hospital Services in Bleeding?	Pre-hospital care	RCEM 88
Omar	Hussain	The Welsh Enhanced Clinical Response Unit (WECRU) in operating a Community Pre-Hospital Emergency Programme in preventing avoidable hospital presentations and effectively treating patient as a new PRU	Pre-hospital care	RCEM 89
Daniel	Ketley	The impact of introducing a disposable video laryngoscope on pre-hospital intubation: A retrospective service evaluation	Pre-hospital care	RCEM 90
Soo Hoon	Lee	Emergency Medical Technicians Assessed Protocol for Primary PCI in ST-segment elevation Myocardial Infarction	Pre-hospital care	RCEM 91
Sophie	Macdonald	Equity of Access to Helicopter Emergency Medical Services in the United Kingdom: A Service Analysis	Pre-hospital care	RCEM 92
Emma	McLean	Thematic analysis of learning objectives for hospital-to-prehospital feedback requests through PHEM Feedback across multiple sites in the East of England	Pre-hospital care	RCEM 93

Salman	Naeem	Feasibility and impact of prehospital point of care ultrasound: A retrospective review at London's Air Ambulance	Pre-hospital care	RCEM 94
Salman	Naeem	Prehospital point-of-care ultrasound for diagnosis of pericardial effusion: A systematic review and meta-analysis	Pre-hospital care	RCEM 95
Joel	Rajesh	A descriptive cross-sectional study of 'Alternative Pre-Hospital Pathway Team' activity on patients aged 75 and over.	Pre-hospital care	RCEM 96
Fiona	Sampson	Is a shared understanding of the purpose of pre-hospital pre-alerts important? Qualitative research exploring UK ambulance and Emergency Department staff perspectives and practice of pre-alerts.	Pre-hospital care	RCEM 97
Jonathan	Woods	Differentiating haemorrhage from a "non-haemorrhagic vagal response to trauma" in hypotensive and bradycardic patients	Pre-hospital care	RCEM 98
Isabella	Zsolnai	1 Evaluating Current Patient Outcome Feedback Provision in Emergency and Prehospital Medicine	Pre-hospital care	RCEM 99
Fahel	Ahmed	Reducing the door to ECG time	Quality improvement and patient safety	RCEM 100
Andy	Ashton	How much time do we spend copying out medication lists in our Emergency Department?	Quality improvement and patient safety	RCEM 101
Muhammed Azam	Awais	Quality Care through Clinical Audit: Assessing Knowledge of Triage and Response Time in the Emergency Department of a University Affiliated Teaching Hospital, Pakistan	Quality improvement and patient safety	RCEM 102
Stevan	Bruijns	Improving safe placement of patients within available Emergency Department space with a bespoke escalation and risk decision MATRIX	Quality improvement and patient safety	RCEM 103

Stevan	Brujins	Development of a bespoke, quality and safety senior nursing role, in order to improve patient care	Quality improvement and patient safety	RCEM 104
Michael	Burney	'Swat away pointless blue-bottles:' Reducing the number of blue top bottles sent from Craigavon Area Hospital Emergency Department	Quality improvement and patient safety	RCEM 105
Sef	Carter	Documentation of handover within the Emergency Department	Quality improvement and patient safety	RCEM 106
Chris	Chung	Improving management of patients with paracetamol overdose: a multidisciplinary team approach with conventional and digital creativity and innovation.	Quality improvement and patient safety	RCEM 107
Chris	Chung	"Would you like to play a game?": Gamification as a teaching aid for the RCEM Covid-19 national QIP and audit	Quality improvement and patient safety	RCEM 108
Matthew	Clarke	Homelessness in the ED: Fulfilling our statutory Duty To Refer	Quality improvement and patient safety	RCEM 109
Patrick	Corning	From Trips to triumphs- A Quality Improvement Project on falls In Older Patients	Quality improvement and patient safety	RCEM 110
Emma-May	Curran	Improving ECG Documentation In The Emergency Department	Quality improvement and patient safety	RCEM 111
Peter	Cuthbert	Improving the learning at M&M.	Quality improvement and patient safety	RCEM 112
Beth	Fishwick	Gender, ethnicity and age: are there structural biases in Major Trauma care?	Quality improvement and patient safety	RCEM 113

Ashley	Flynn	Black is the New Orange: A QIP (Quality Improvement Project) of Waste Segregation in the Emergency Department (ED)	Quality improvement and patient safety	RCEM 114
Madeleine	Graydon	A Quality Improvement Project to Improve Labelling of ECGs in a Local A&E Department	Quality improvement and patient safety	RCEM 115
Asim	Habib	Our experience using Artificial Intelligence for fracture detection... Impact on ED	Quality improvement and patient safety	RCEM 116
Sarah	Hodgson	Thematic analysis of 'Prevention of Future Deaths' reports related to Emergency Departments in England and Wales 2013-2022	Quality improvement and patient safety	RCEM 117
Heather	Jarman	Ensuring best practice in the Emergency Department setting for those who have experienced or are at risk of Domestic Abuse	Quality improvement and patient safety	RCEM 118
David	Lean	Management of patients presenting to the emergency department of a district general hospital with head injury – an audit of compliance with nice guidelines [NG232] for performing CT scans	Quality improvement and patient safety	RCEM 119
Adekolawole	Longe	Improving The Management of Patients With Bell's Palsy In The Emergency Department: A Quality Improvement Project in a UK Tertiary Hospital	Quality improvement and patient safety	RCEM 120
Cameron	Lynch	Antibiotic resistance – the next pandemic?	Quality improvement and patient safety	RCEM 121
Sherif	Mira	Audit of Hyperkalemia Management in our ULHT trust	Quality improvement and patient safety	RCEM 122
Jonathan	Mosery	Medical expertise as a critical influencing factor on the length of stay in the ED - a retrospective cohort study	Quality improvement and patient safety	RCEM 123

Jonathan	Mosery	Real-time prediction of patient disposition and the impact of reporter confidence on mid-level triage accuracies – An observational study in Israel	Quality improvement and patient safety	RCEM 124
Jonathan	Mosery	The Israeli Physician Assistant in a Tertiary Medical Center Emergency Department	Quality improvement and patient safety	RCEM 125
Salman	Naeem	Modified pain, inspiration and cough score: A quality improvement project for improving diagnosis of chest wall injuries in a district general hospital	Quality improvement and patient safety	RCEM 126
Sarat	Naidu	Assessing for cognitive impairment in older people in ED	Quality improvement and patient safety	RCEM 127
Claudia	Passalacqua	Reducing Cognitive Overload in the Resuscitation Room	Quality improvement and patient safety	RCEM 128
Omotayo	Raji	Compliance of Non Invasive Ventilation Usage with local guidelines.	Quality improvement and patient safety	RCEM 129
Simon	Robson	Hypokalaemia Management in the Emergency Department	Quality improvement and patient safety	RCEM 130
Mohamed	Shirazy	Improving Octaplex prescription and administration knowledge and confidence in the Emergency Department	Quality improvement and patient safety	RCEM 131
Robert	Starba	Towards a Green ED: Improving Waste Management in the Emergency Department	Quality improvement and patient safety	RCEM 132
Dhanya	Stephen	Testing for HIV in those with Community Acquired Pneumonia in the ED at the Countess of Chester Hospital (COCH) – are we getting it right?	Quality improvement and patient safety	RCEM 133

Sahd	Tahir	Adherence to the national framework guidance for Acute Coronary Syndrome assessment in the Emergency Department: An audit of the use of ECGs in two Oxfordshire Emergency Department	Quality improvement and patient safety	RCEM 134
Etimbuk	Umana	Improving Airway Management in the Emergency Department. A 2-Year Quality Improvement Project	Quality improvement and patient safety	RCEM 135
Charlotte	Underwood	Raising ED clinicians' awareness of the importance of measuring frailty in geriatric trauma patients in a Major Trauma Emergency Department – a quality improvement project	Quality improvement and patient safety	RCEM 136
Rajesh	Vasiraju	Supporting Emergency Department clinicians in managing patients with failed feeding Gastrostomy tubes: An Innovation.	Quality improvement and patient safety	RCEM 137
Monica	Wallace	A Retrospective Clinical Audit of Emergency Department Eye Presentations and Ophthalmology Referrals	Quality improvement and patient safety	RCEM 138
Lagath	Wanigabadu	A digital online tool for maintaining patient safety during winter pressures in paediatric A & E handover	Quality improvement and patient safety	RCEM 139
Joshua	Wren	Renal Colic: Streamlining investigations to improve patient outcomes in Emergency Medicine.	Quality improvement and patient safety	RCEM 140
Safiya	Zaloum	'WhatsApp' questionnaires to engage patients with nitrous oxide-induced myeloneuropathy to reduce non-attendance rates	Quality improvement and patient safety	RCEM 141
Rosie	Ziff	An analysis of medication related patient safety incidents in emergency departments in the UK.	Quality improvement and patient safety	RCEM 142
Gareth	Clegg	Edinburgh E-CPR Programme: Does an in-hospital model work in our region?	Resuscitation	RCEM 143

Jessie	Lynch	The Post-ROSC Bundle: Development of a Proforma and Algorithm Incorporating Recent International Guidelines to Improve Post-Resuscitation Care in the Emergency Department	Resuscitation	RCEM 144
John	Wilson	Improving post cardiac arrest care by increasing use of ECG and PCI referrals	Resuscitation	RCEM 145
Muhammed Azam	Awais	WHITE BLOOD CELL TO PLATELET RATIO AS A MARKER OF ADVERSE OUTCOME IN ORGRANOPHOSPHATE POISONING: A RETROSPECTIVE CROSS SECTIONAL SURVEY	Toxicology	RCEM 146
Arlene	Copland	Prevention of unplanned admissions for patients experiencing acute alcohol withdrawal in the emergency department: reviewing the impact of a hospital-based Alcohol Care Team	Toxicology	RCEM 147
Lisa	Dunlop	The characteristics of emergency department presentations with analytically confirmed detection of bromazolam – 6-month data from the ASSIST study	Toxicology	RCEM 148
Marsika	Groenewald	Antidote availability in an acute general hospital in Ireland	Toxicology	RCEM 149
Emma	Moyns	Recreational nitrous oxide misuse: trends in enquiries to the UK National Poisons Information Service (NPIS), 2011-2022	Toxicology	RCEM 150
Nikhil	Sarma	Implementation of an oral ethanol protocol for the prevention and management of alcohol withdrawal syndrome (AWS)	Toxicology	RCEM 151
Hayley	Williams	Exotic snakebites reported to the UK National Poisons Information Service (NPIS), 2009-2020	Toxicology	RCEM 152
Ali	Al-alkulabi	Digitalising musculoskeletal injuries management and referral pathway – Introducing a novel IT service solution	Trauma and musculoskeletal	RCEM 153

Harriet	Asquith	Serratus Anterior Plane (SAP) blocks for rib fractures in the Emergency Department - a retrospective cohort study	Trauma and musculoskeletal	RCEM 154
Liam	Barrett	Experimental models of traumatic injuries: how do they capture trauma induced coagulopathy and underlying endotheliopathy? A narrative review	Trauma and musculoskeletal	RCEM 155
Caleb	Chen Fan Tjuin	Heterogeneity in Adult Rib Fracture Management: A Systemic Review of the Quality Clinical Practice Guidelines from Major Trauma Centres in England and Wales.	Trauma and musculoskeletal	RCEM 156
Laura	Cotley	Ex-vivo normothermic perfusion-a new model for researching trauma?	Trauma and musculoskeletal	RCEM 157
Laura	Cotley	The impact of different resuscitation fluids on cellular energy metabolism in traumatic injury and haemorrhagic shock	Trauma and musculoskeletal	RCEM 158
Wafaa	Ghanam	Spontaneous Pretibial Hematoma: A Case Study Unveiling the "Clinical Puzzle"	Trauma and musculoskeletal	RCEM 159
Hannah	Greenlees	Major Trauma Presenting To Trauma Units – A Scottish DGH Perspective	Trauma and musculoskeletal	RCEM 160
Omar	Hussain	Evaluating Ischemia Monitoring Methods for Lower Limb Fracture Care	Trauma and musculoskeletal	RCEM 161
Heather	Jarman	Withdrawal of life-sustaining measures in ED trauma patients: a 10-yr review	Trauma and musculoskeletal	RCEM 162
Heather	Jarman	Establishing the research priorities for major trauma in the United Kingdom: A Delphi study of emergency and major trauma nurses and practitioners	Trauma and musculoskeletal	RCEM 163
Gillian	Judge	Introduction of an Inpatient Trauma Service (IPTS) leads to increased recognition of injuries through a trauma tertiary survey.	Trauma and musculoskeletal	RCEM 164
Mohamed	Mansour	The current acute musculoskeletal injuries management and referral pathway. What are the challenges?	Trauma and musculoskeletal	RCEM 165

Vaishnavi	P R R	Changes in Optic Nerve Sheath Diameter Following Rigid Cervical Collar Application in Patients with Traumatic Brain Injury; A Prospective Observational Study in a Tertiary Care Teaching Hospital	Trauma and musculoskeletal	RCEM 166
Jason	Smith	Think ahead before you shred: Major trauma associated with skateboarding in England and Wales.	Trauma and musculoskeletal	RCEM 167
Charlotte	Underwood	Retrospective evaluation of frailty in geriatric trauma patients presenting to a Major Trauma Emergency Department	Trauma and musculoskeletal	RCEM 168
Laura	Watson	Improving efficiency of shoulder dislocation management in ED: an audit examining length of stay and resuscitation room use before and after the introduction of Pentrox©	Trauma and musculoskeletal	RCEM 169
Emily	Winn	ORTHOPOD: Predicting injury proportionality from Neck of Femur Fractures	Trauma and musculoskeletal	RCEM 170
Louise	Anthony	Paediatric Level II Trauma: Reducing Wait Times by Early Identification	Paediatric emergency medicine	APEM 1
Louise	Anthony	A Regional Paediatric Secondary Trauma Transfer Guideline for non-critical care patients	Paediatric emergency medicine	APEM 2
Anya	Baig	Improving the experience of children and young people with mental health problems in Barnet Hospital Paediatric Emergency Department	Paediatric emergency medicine	APEM 3
Nathalie	Burt	Setting up a Medical Assistant Role in the Paediatric Emergency Department: a quality improvement review of a pilot scheme.	Paediatric emergency medicine	APEM 4
Megan	Chrysikopoulou	Improving the care of children presenting with Paracetamol overdose, a QI project.	Paediatric emergency medicine	APEM 5

Hugo	Dowd	Whistle for help... A review of 5 years of paediatric sedation with methoxyflurane for painful procedures in ED	Paediatric emergency medicine	APEM 6
Eleanor	Edwards	'Educate and Recreate': Creating Audit and Education Tools to Improve Simple Urinary Tract Infection Management in a Paediatric Emergency Department	Paediatric emergency medicine	APEM 7
Amelia	Fortescue	Meeting the health needs of refugee and asylum-seeking children presenting to UK emergency departments.	Paediatric emergency medicine	APEM 8
Marlieze	Krielaart	Chest X-rays for bronchiolitis? It's time to stop and think! A single centre retrospective review	Paediatric emergency medicine	APEM 9
Mark	Lyttle	The Limping Child: a review of Clinical Practice Guidelines (CPG) to determine quality utilising the AGREE II instrument and variance of clinical recommendations.	Paediatric emergency medicine	APEM 10
Chun Ho Alvin	Man	A Service Evaluation of the Management of Under 18-year-olds in an Adult Emergency Department	Paediatric emergency medicine	APEM 11
Amardeep Kaur	Mann	Global Risks of Paediatric Hospitalisation Following Emergencies Related to Mental Illness: A Systematic Review	Paediatric emergency medicine	APEM 12
Clare	Mc Auley	Croup management in the Emergency Department	Paediatric emergency medicine	APEM 13
Jamie	Pope	Notification of child protection concerns in the emergency department: a dual-site trainee led and delivered quality improvement project	Paediatric emergency medicine	APEM 14
Lagath	Wanigabadu	Model of a Paediatric vaccine-based trial in a district general hospital	Paediatric emergency medicine	APEM 15

Lagath	Wanigabadu	Development of a lumbar puncture box, guideline, and a patient information leaflet in paediatric A & E and paediatric department in a district general hospital	Paediatric emergency medicine	APEM 16
Johnny	Burrows	Should Dexamethasone be used for the treatment of acute paediatric asthma exacerbations?	Paediatric emergency medicine	APEM 17
Matthew	Crawley	Can the Paediatric Appendicitis Score help with decision making in the Emergency Department?	Paediatric emergency medicine	APEM 18
Sarah	Edwards	In paediatric patients with closed distal radial fractures, how do functional outcomes compare following simple plaster casting versus surgical management? A systematic review	Paediatric emergency medicine	APEM 19
Ahmed	Elhalwany	"The Tiny Magnet Swallowed: A Small Toy or a Big Risk?"	Paediatric emergency medicine	APEM 20
Hussein	Hussein	Tonsillitis and the Quirky Neck Connection: Unveiling the Hidden Link	Paediatric emergency medicine	APEM 21
Guilherme	Movio	Demographics in paediatric and adolescent major trauma in South London and subsequent safeguarding actions	Paediatric emergency medicine	APEM 22
Shanmugam	Ramasamy	To Improve The Management of Forearm Fractures in Children Aged 5 to 15 years - A Quality Improvement Project.	Paediatric emergency medicine	APEM 23
